Profile

Senior Frontend Engineer with 4+ years of experience architecting **scalable React.js** applications, **micro-frontend** platforms, and real-time enterprise dashboards serving global manufacturing operations. Expertise in **component-driven architecture**, **TypeScript**, **Redux Toolkit**, **Progressive Web Apps**, **REST/GraphQL APIs**, **performance optimization**, and **CI/CD automation**. Proven track record of owning end-to-end frontend systems and shipping high-impact features in Agile teams.

Technical Skills

- **Languages & Frontend:** JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL, C, C++, React.js, Redux Toolkit, React Router DOM, Tailwind CSS, Styled Components, Webpack, Vite, **Progressive Web Apps**
- **Architecture & APIs:** Micro-frontends, Component-driven Design, System Design, REST, GraphQL, WebSockets, Axios
- **Testing, DevOps & Tools:** Jest, React Testing Library, Cypress, Playwright, Git, GitHub, CI/CD, Azure DevOps, GitHub Actions, Docker, VS Code, Chrome DevTools
- **Core Concepts:** Data Structures & Algorithms, OOPS, Performance Optimization

Experience

Software Engineer — Daimler Truck Innovation Center India, Bangalore Jul 2022 – Present

- **Architected and owned** a scalable **React.js + TypeScript** dashboard platform using **component-driven** and **micro-frontend** patterns, enabling real-time component tracking and analytics across 10+ warehouse systems — reducing manual tracking effort by **60%** and supporting 500+ daily active users.
- Optimized application performance through **code splitting**, **lazy loading**, memoization, and bundle-size reduction — improving dashboard load time and responsiveness by **20%**
- Implemented **unit and integration tests** using **Jest** and **React Testing Library**, achieving 80%+ code coverage and reducing production defects across critical dashboard modules.
- Configured **CI/CD pipelines** on **Azure DevOps** with automated builds, linting, testing, and deployment — cutting release cycle time by 40%.
- Built a **QR-based verification system** replacing manual validation, enabling instant warehouse tracking on iPads with real-time backend sync.
- Migrated 4 legacy iOS applications into **Progressive Web Apps (PWA)** with offline access, service workers, and cross-device compatibility — eliminating App Store dependency and reducing maintenance effort.
- Developed **OCR-based automation** for MIS reporting and audit workflows, replacing manual data entry across multiple business units.
- Ensured **WCAG 2.1 accessibility compliance** via semantic HTML, ARIA attributes, and keyboard navigation across all customer-facing modules.
- Led **code reviews** and mentored junior engineers on React best practices, design patterns, and scalable component architecture in an **Agile/Scrum** environment.

Software Engineer Intern (R&D) — Samsung R&D Institute, Bangalore Aug 2020 – Aug 2021

- Developed a low-complexity CNN-based **AI Video Super Resolution (AI-VSR)** system optimized for real-time inference on edge devices.
- Achieved results comparable to state-of-the-art models at significantly reduced computational cost; outcomes contributed to internal research publications.

Projects

Miniflix — React.js Video Streaming Platform Jun 2021 – Dec 2021

- Built a full-stack **React.js** streaming platform with account management, offline video playback, favorites, and profile editing — leveraging **Redux** for state management and **React Router** for navigation.
- Implemented responsive UI with **lazy-loaded routes** and optimized media delivery for low-bandwidth users.

Education

KLE Technological University, Hubli — B.E. Electronics and Communication 2018 – 2022

GPA: 8.61 / 10

Sheiling House School (ISC) — Intermediate 2017

84%

Achievements

- **Patent Filed:** AI-based Intelligent Bubble Detection System using Neural Networks for cooling infrastructure.
- **Bronze Award (2x)** — Daimler Truck Innovation Center, for industrial process innovation and frontend engineering impact.
- **Global Rank 137** — HackerEarth May Circuits Contest; **Global Rank 761** — CodeChef SpyBits by IIT-BHU.
